

Research Technician / Lab Manager: Bhabha + Ekiert Labs

We are looking for a Research Technician / Lab Manager to assist with day-to-day operations and perform research in the [Bhabha+Ekiert labs](#) at Johns Hopkins University in Baltimore.

Responsibilities include:

- Conducting independent research (50% time). Our lab uses cell biology, microbiology, biochemistry, genetics, and structural biology to study microbes. See our website for more info!
- Lab management (50 % time) including:
 - Ordering – including negotiating with vendors, placing orders and following up on orders
 - Organizing and stocking lab reagents
 - Receiving and unpacking packages
 - Maintaining lab plasmid inventory
 - Proper disposal of chemical and biological waste
 - Making common lab reagents, solutions and media
 - Organizing and maintaining lab inventory
 - Scheduling safety training/point of contact for safety inspections
 - Maintaining and overseeing a high standard of organization in the lab

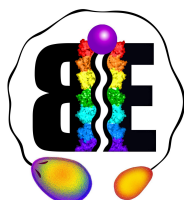

Minimum qualifications:

- BA, BS, or MSc degree in Biology or a related field (or completed by ~June 2024)
- A basic understanding of how to make scientific solutions/buffers
- Excellent organizational & interpersonal skills, time management, self-motivation, & work ethic

Salary: TBD, commensurate with experience (salary range: \$35,000 - \$71,600)
